You will be followed up by **two teams**.

Your **local hospital** team will:

- Call you **at least twice** during your first month of treatment and once after 6 months of taking the treatment to:

- Check new symptoms or problems that you have noticed.

- Discuss how your study drug treatment is progressing.

Drug treatment will continue for 6 **months**.

- The **Nottingham central** team will be checking new symptoms or problems that you have noticed and asking you some questions at the **6-month** telephone follow up.

- **Please return** any **unused** tablets in their packs to the **community** or **hospital** pharmacy,
- Keep old unused tablets in a separate bag with a note:
"Do not take it. Return to the pharmacy".

Additional Instructions
