

Do you want to get involved in research?

CVD-Cog is aiming to find a treatment for cerebral small vessel disease (CVD).

- We are looking for 400 participants who have had a stroke, or TIA.
- Participants will be randomised to one of our treatment groups to receive either both, neither, or a combination for a period of 6-months.

If you, or your relative, would like more information please contact the research team on the details below.
