17 November 2021

Dear Professor Roffe

HRA and Health and Care Research Wales (HCRW) Approval Letter

Study title: The Metoclopramide for Avoiding Pneumonia after

Stroke (MAPS-2) Trial: a single-blind, randomized

controlled trial of metoclopramide for the prevention of pneumonia in patients with dysphagia after an acute

stroke

IRAS project ID: 290474

EudraCT number: 2021-003853-40

Protocol number: 21051

REC reference: 21/EM/0246

Sponsor University of Nottingham

I am pleased to confirm that <u>HRA and Health and Care Research Wales (HCRW) Approval</u> has been given for the above referenced study, on the basis described in the application form, protocol, supporting documentation and any clarifications received. You should not expect to receive anything further relating to this application.

Please now work with participating NHS organisations to confirm capacity and capability, <u>in</u> <u>line with the instructions provided in the "Information to support study set up" section towards the end of this letter.</u>

How should I work with participating NHS/HSC organisations in Northern Ireland and Scotland?

HRA and HCRW Approval does not apply to NHS/HSC organisations within Northern Ireland and Scotland.

If you indicated in your IRAS form that you do have participating organisations in either of these devolved administrations, the final document set and the study wide governance report (including this letter) have been sent to the coordinating centre of each participating nation. The relevant national coordinating function/s will contact you as appropriate.

Please see <u>IRAS Help</u> for information on working with NHS/HSC organisations in Northern Ireland and Scotland.

How should I work with participating non-NHS organisations?

HRA and HCRW Approval does not apply to non-NHS organisations. You should work with your non-NHS organisations to <u>obtain local agreement</u> in accordance with their procedures.

What are my notification responsibilities during the study?

The standard conditions document "<u>After Ethical Review – guidance for sponsors and investigators</u>", issued with your REC favourable opinion, gives detailed guidance on reporting expectations for studies, including:

- Registration of research
- Notifying amendments
- Notifying the end of the study

The <u>HRA website</u> also provides guidance on these topics, and is updated in the light of changes in reporting expectations or procedures.

Who should I contact for further information?

Please do not hesitate to contact me for assistance with this application. My contact details are below.

Your IRAS project ID is 290474. Please quote this on all correspondence.

Yours sincerely, Kelly Rowe

Approvals Manager

Information to support study set up

The below provides all parties with information to support the arranging and confirming of capacity and capability with participating NHS organisations in England and Wales. This is intended to be an accurate reflection of the study at the time of issue of this letter.

Types of participating NHS organisation	Expectations related to confirmation of capacity and capability	Agreement to be used	Funding arrangements	Oversight expectations	HR Good Practice Resource Pack expectations
Participating NHS organisations will conduct all study activities as per protocol.	Research activities should not commence at participating NHS organisations in England or Wales prior to their formal confirmation of capacity and capability to deliver the study.	The sponsor intends to use a modified model agreement with participating NHS organisations. The agreement has been modified as follows: • The front page has been amended to include additional identifiers and logo. • Study drug has been redefined in the definitions as Investigational Medicinal Product so that this is not misinterpreted when a drug is used in a non-CTIMP. • Clauses 3.9 – 3.12 have been removed as they can never be applicable when	Funding has been secured from the NIHR. The SoECAT submitted for this study has been authorised by an AcoRD Expert.	A PI is expected at participating NHS organisations	It is anticipated that all study activities at site will be conducted by local staff with an existing contractual relationship. No further HR Good Practice arrangements expected

the University is the sponsor. Clauses 3.13 and 3.14 have been therefore been renumbered 3.8 and 3.9 accordingly. Clause 6.1 has been amended to include that the Cl can provide permission on behalf of the sponsor. Clause 16.5 has been amended to state that the agreement can only be executed in counterpart where it is not a CTIMP. Formatting changes have been made to reduce the number of pages. These modifications are within the limits of acceptability and the HRA and HCRW waive the requirement to use an unmodified model agreement. Participating NHS organisations should now determine the acceptability of the modifications and liaise with the sponsor to confirm the content of the agreement. Please note, this

approval of	not constitute he agreement, nor		
does it requorganisation			
agreement.			

Other information to aid study set-up and delivery

This details any other information that may be helpful to sponsors and participating NHS organisations in England and Wales in study set-up.

The applicant has indicated that they intend to apply for inclusion on the NIHR CRN Portfolio.
