

# Pharyngeal Electrical stimulation for Acute Stroke dysphagia Trial

## PhEAST

### New Protocol v10.0

Protocol v10.0 is now **LIVE!**

#### Remember:

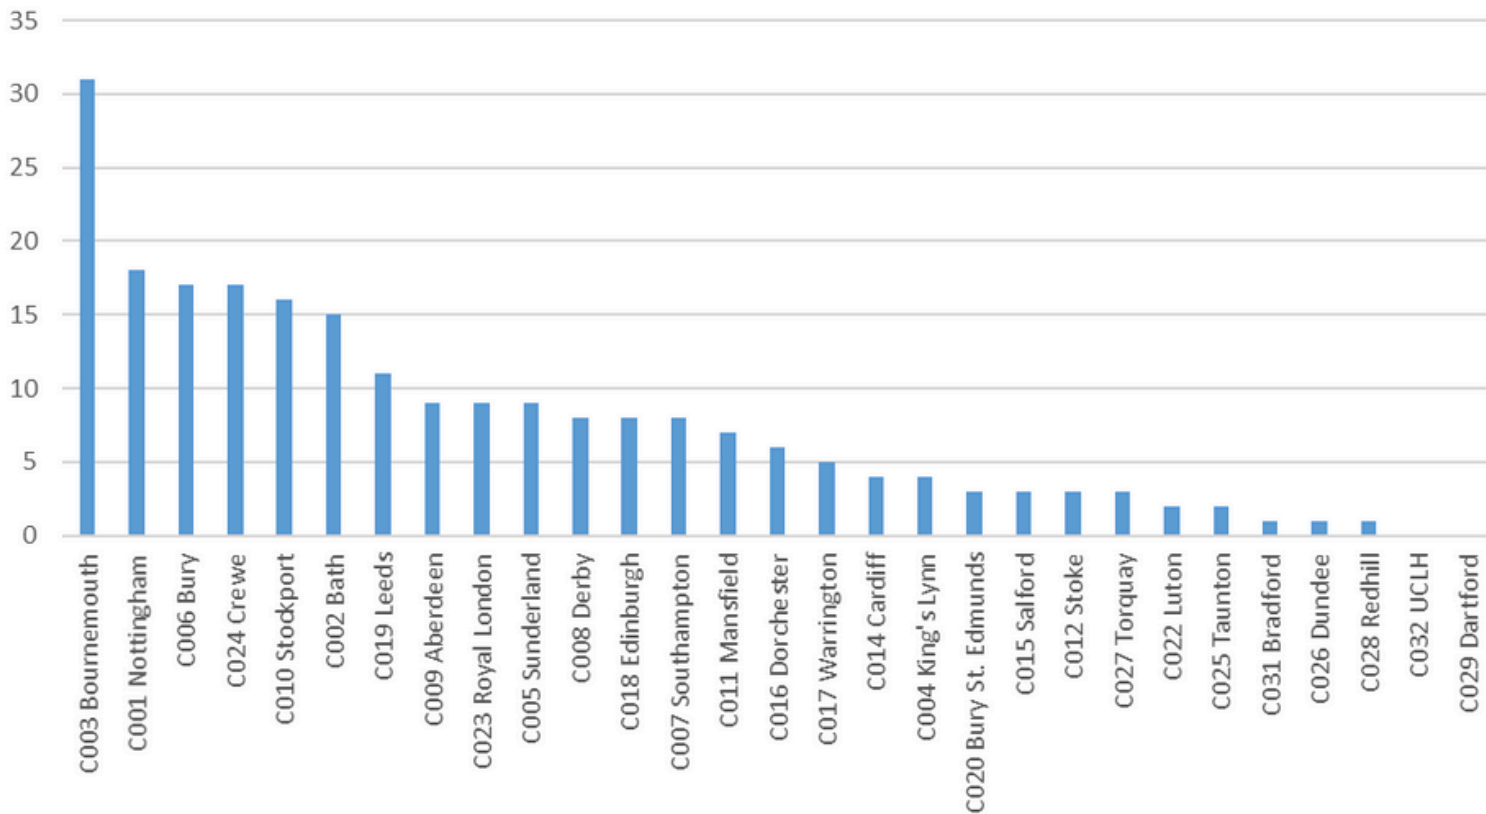

>2 catheters per-participant now may be used:

Catheters may be replaced if removed >2 times before 3 treatments given; AND  
Catheters may be replaced if removed after 3 treatments given!

Please have your R&D departments locally approve this amendment as soon as possible!

### Recruitment Update

Recruitment as of 31 May = 221

You recruited 13 patients in May - well done!

We are delighted to welcome Darent Valley Hospital, Dartford, to the PhEAST trial!

# Pharyngeal Electrical stimulation for Acute Stroke dysphagia Trial PhEAST

## Investigator Meeting

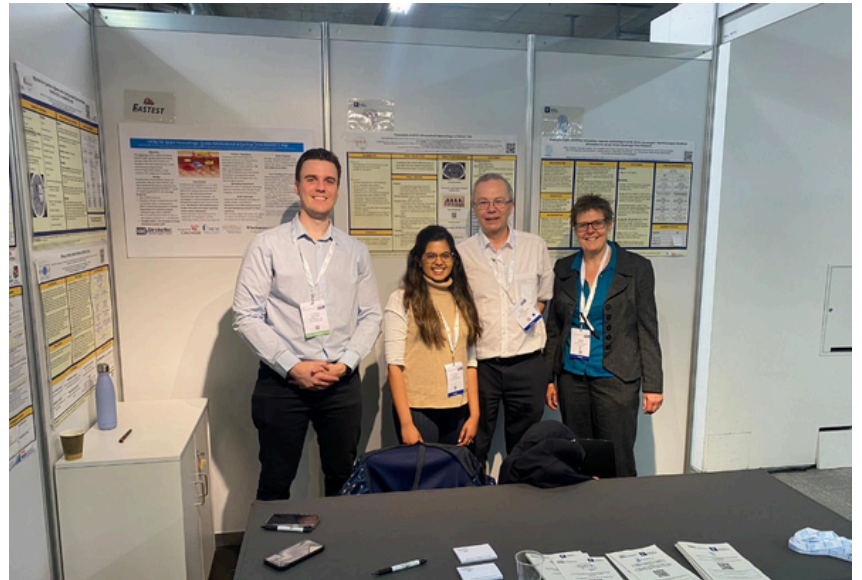

Join us for our next PhEAST Investigator Meeting!

Wednesday  
12th June  
12.00 - 13.00

## ESOC 2024

We were delighted to showcase our trials unit at ESOC in Basel!

Thank you to all investigators who visited our stand, or attended the PhEAST presentation delivered by Prof. Philip Bath!

## New Aphasia-friendly Resources

We are please to announce that all new, patient-facing, aphasia-friendly resources have been **approved**.

These can be viewed and downloaded from the PhEAST documents page:  
<https://stroke.nottingham.ac.uk/pheast/docs/>
