Reminders

INFORMANT / IQCODE:

Please consent an informant for every participant, and complete the IQCODE form with the informant at baseline and day 14. This is really important information, as lots of our participants cannot answer the cognition questions.

CONSENT FORMS:

Please upload all consent forms within 24 hours of consent, to the supporting site.

DATA COMPLETION:

Please upload all data to the redcap database as soon as possible after collecting, the trial team conduct ongoing monitoring and will need to ask for this if it is not uploaded. Please also ensure the forms are as complete as possible.

Save the date!

Our next investigator meeting is scheduled for:

Wednesday 7th December 12.30pm

If you have not received the link please contact the trial team

Amendments:

SA/04/22

Approved 20/10/2022 and has been sent to all R&D departments for local approval.

This is the clarification regarding NG / Catheter placement, including radiation risk assessments in patient facing documents

Please ensure you are using the latest paperwork which can be found:

- <https://stroke.nottingham.ac.uk/pheast/docs/>
