#### Details:

Some sites were given a paper delegation log as part of their electronic site file.

Sites have been informed that the paper delegation logs are obsolete, as we will be using an online delegation log in the PhEAST trial. All sites are to supersede any paper delegation logs, and use the online delegation logs instead.

This file note as well as any superseded logs are to be saved in section A4 of the site file.

New sites setting up will only use the online delegation log.
