

# TICH-3 NEWSLETTER

TICH-3@nottingham.ac.uk <http://tich-3.ac.uk/>

ISRCTN: 97695350 July 2022, Issue 2

## RECRUITMENT UPDATE

Running total **11**

University Hospital of North Durham has recruited their second participant!

King's College Hospital has recruited two participants!

Salford Royal Hospital has recruited two participants within 11 days of opening!

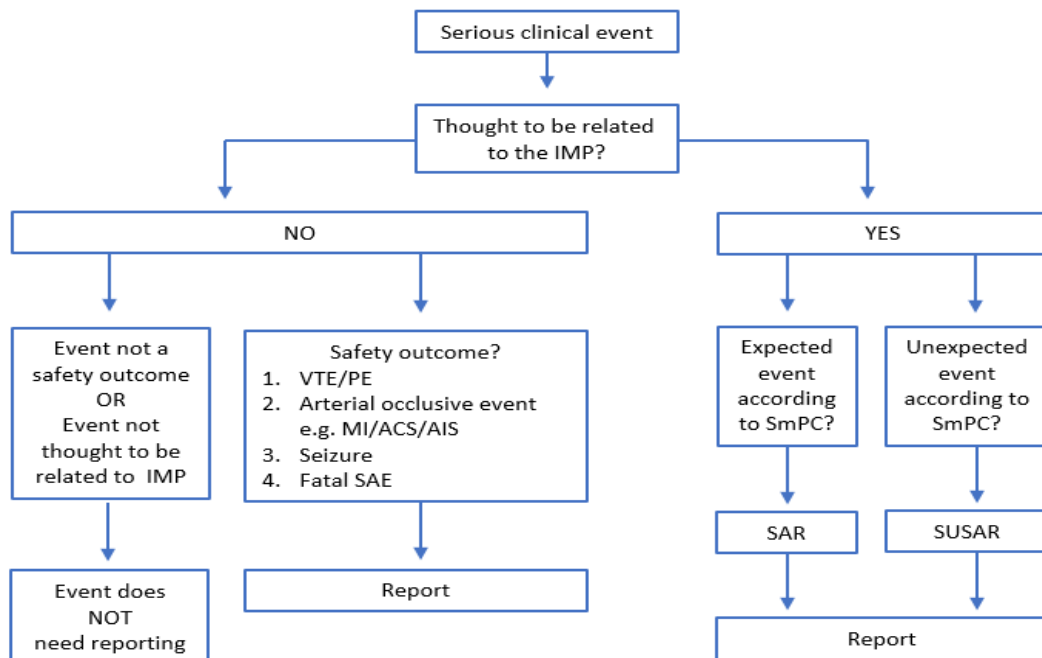

**FOR ELIGIBILITY QUERIES PLEASE CALL THE TICH-3 EMERGENCY PHONE NUMBERS**

+44 (0)7725 580 092 +44 (0)7736 843 592  
+44 (0)7798 670 726 +44 (0)7810 540 604

## SAE REPORTING

Remember serious Adverse Events (SAEs) that are not safety outcomes, SARS or SUSARS should not be reported. E.g. Neurological deterioration, haematoma expansion, cerebral oedema that is NOT thought to be related to the IMP, and does not result in death does not need to be reported as an SAE.

### SAE Reporting Flowchart

## ANONYMISING DOCUMENTS

### REMINDER

Please remember to anonymise the CT scan reports and drug charts and add the participant trial ID number to the document before uploading to the secure vault. Consent forms are not to be anonymised. CT scan images need to be anonymised but pseudonymised information maintained such as DOB.

## TICH-3 WEBSITE

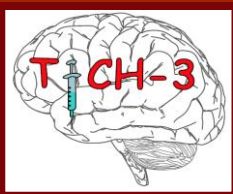

Please note that the invitation and activation emails to the TICH-3 website are sometimes going into junk mail, we have raised the issue with NHS.net. Please add [TICH-3@nottingham.ac.uk](mailto:TICH-3@nottingham.ac.uk) to your contacts so that you receive the important email alerts from the TICH-3 website.

*Thank you!*

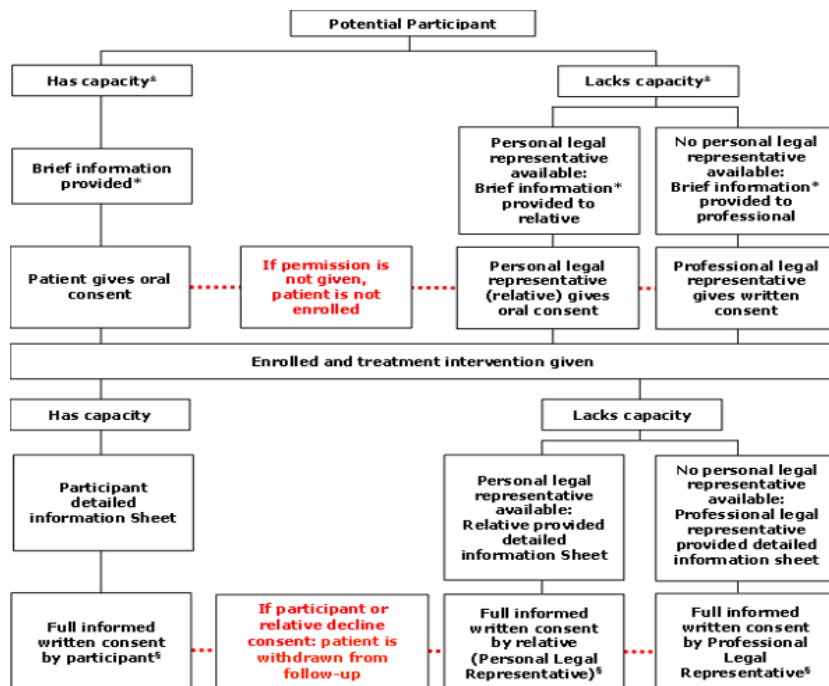

The TICH-3 trial would not be possible without the support of our investigators, thank you to everyone that has joined us thus far

- Fairfield General Hospital, Bury
  - Salford Royal Hospital, Salford
  - Sunderland Royal Hospital, Sunderland
  - Southampton General Hospital, Southampton
  - Victoria Hospital, Fife
  - Northumbria Specialist Emergency Care Hospital, Northumberland
  - Monklands District General Hospital, Lanarkshire
  - Dorset County Hospital, Dorchester
  - Royal Infirmary of Edinburgh, Scotland
  - Peterborough City Hospital, Peterborough
- or is in the process of site set up.

# ORAL CONSENT PROCESS

TICH-3 has received ethic approval for enrolment consent to be taken verbally due to the emergency nature of ICH. The only instance where written consent is obtained for enrolment is if an independent doctor is used if the patient does not have capacity and no relatives are present/contactable. Full, written informed consent is to be sought as soon as practicable, ideally within the next 24 hours.

We are currently recruiting hyperacute stroke units and investigators in the UK.

PLEASE JOIN US!

## NIHR RESEARCH RESET

Following the pandemic, the NIHR is taking urgent action to address the current clinical research delivery challenges in the NHS, termed the 'Research Reset' (more information can be found [here](#)). We believe TICH-3 satisfies the questions asked by NIHR.

- ✓ Research question is still of importance - ICH is devastating
- ✓ Care pathway for ICH is unchanged – there is currently no evidence for haemostatic therapies in standard care guidelines
- ✓ Able to recruit the target population – please help us to reach our recruitment target ahead of the stop-go decision

## INVESTIGATOR MEETINGS

We would like to invite you all to join the TICH-3 trial team where we will discuss topics of interest for the trial. Some topics include.

- Serious adverse events
- Experiences of recruiting into TICH-3
- Ethically approved oral consent processes
- Support for non-consultant PIs

If there is a particular topic or question you would like to discuss please send this to us over email prior to the meeting.

### UPCOMING MEETINGS

- ❖ Thursday 11<sup>th</sup> August 12.30 – 1.30pm [Click here to join the meeting](#)
- ❖ Tuesday 13<sup>th</sup> September 12.15 – 1.15pm [Click here to join the meeting](#)
- ❖ Wednesday 12<sup>th</sup> October 1 – 2pm [Click here to join the meeting](#)

Invitations will also be sent to your email address so look out for these!
