Dear Sir or Madam,

Sponsorship Statement

Re: Tranexamic acid for IntraCerebral Haemorrhage (TICH-3)

I can confirm that this research proposal has been discussed with the Chief Investigator and agreement to sponsor the research is in place.

An appropriate process of scientific critique has demonstrated that this research proposal is worthwhile and of high scientific quality.

Any necessary indemnity or insurance arrangements will be in place before this research starts. Arrangements will be in place before the study starts for the research team to access resources and support to deliver the research as proposed.

Wording has been included in the participant information sheets to address the requirements of GDPR for transparency information and has been drafted by the sponsor to ensure consistency and compliance with the University's privacy notice, HRA guidance and the expectations of other organisations, therefore the HRA template wording has not been used verbatim.

Arrangements to allocate responsibilities for the management, monitoring and reporting of the research will be in place before the research starts.

The duties of sponsors set out in the UK Policy Framework for Health and Social Care Research will be undertaken in relation to this research.

All protocol documents are submitted with draft xx / final v1.0 date. Once all national approvals are in place and the protocol documents are in consensus the 'draft xx' will be removed such that the trial will start with all approved documents at 'final version 1.0 date'.

Yours faithfully

Angela Shone

Head of Research Governance
University of Nottingham
