

Modified Rankin Scale

Modified Rankin Score of 2 or less?

Translates to an ability of the patient to look after themselves, i.e. wash/dress without help from others (even though they cannot do all the activities they did pre stroke) and they can walk (with an aid if necessary) without external help from others.

- 0 No symptoms at all
- 1 No significant disability despite symptoms; able to carry out all usual duties and activities
- 2 Slight disability; unable to carry out all previous activities, but able to look after own affairs without assistance
- 3 Moderate disability; requiring some help, but able to walk without assistance
- 4 Moderately severe disability; unable to walk without assistance and unable to attend to own bodily needs without assistance
- 5 Severe disability; bedridden, incontinent and requiring constant nursing care and attention
- 6 Dead
